Experimental & Applied Acarology, 9 (1990)
Elsevier Science Publishers B.V., Amsterdam

Author Index

Alberti, G.
Book review of *An Introduction to Comparative Arachnology*, by L. van der Hammen ... 311
Archer, T.L., Onken, A.B., Bynum, E.D.Jr. and Peterson, G.C.
Banks grass mite (*Oligonychus pratensis*) abundance on sorghum cultivars with different levels of nitrogen use and metabolism efficiency 177
Barnard, D.R.
Population growth rates for *Amblyomma americanum* (Acari: Ixodidae) on *Bos indicus, B. taurus* and *B. indicus*×*B. taurus* cattle 259
Bellotti, A.C., *see* Mesa, N.C. et al.
Braun, A.R., *see* Mesa, N.C. et al.
Bronner, R., *see* Westphal, E. et al.
Bruce-Oliver, S.J. and Hoy, M.A.
Effect of prey stage on life-table attributes of a genetically manipulated strain of *Metaseiulus occidentalis* (Acari: Phytoseiidae) 201
Bynum, E.C. Jr., *see* Archer, T.L. et al.
Carey, J.R., *see* Krainacker, D.A. and Carey, J.R.
Colin, M.E., *see* Richard et al.
Coons, L.B., *see* Eggenberger, L.R. et al.
De Boer, R.
Effect of heat treatments on the house-dust mites *Dermatophagoides pteronyssinus* and *D. farinae* (Acari: Pyroglyphidae) in a mattress-like polyurethane foam block 131
De Boer, R. and van der Geest, L.P.S.
House-dust mite (Pyroglyphidae) populations in mattresses, and their control by electric blankets 113
Delucchi, V., *see* Wermelinger, B. and Delucchi, V.
Downing, A.S., Wright, C.G. and Farrier, M.H.
Effects of five insect growth regulators on laboratory populations of the North American house-dust mite, *Dermatophagoides farinae* 123
Dreger, F., *see* Westphal, E. et al.
Edwards, J.P. *see* Thind, B.B. and Edwards, J.P.
Eggenberger, L.R., Lamoreaux, W.J. and Coons, L.B.
Hemocytic encapsulation of implants in the tick *Dermacentor variabilis* 279
El Shoura, S.M.
Ultrastructure and distribution of intracellular rickettsia-like microorganisms in various organs of the laboratory-reared adult tick *Argas* (*Persicargas*)*arboreus* (Ixodoidea: Argasidae) 137
Errampalli, D.D. and Knowles, C.O.
Cholinesterase inhibition in the bulb mite *Rhizoglyphus echinopus* (Acari: Acaridae) in relation to the acaricid action of organophosphates and carbamates 19
Farrier, M.H., *see* Downing, A.S. et al.
Fivaz, B.H.
Immunological responses of the rabbit host to infestation by the brown ear-tick *Rhipicephalus appendiculatus* (Acarina: Ixodidae) 219

Hoff, O.K., *see* Kahl, O. et al.
Hoy, M.A., *see* Bruce-Oliver, S.J. and Hoy, M.A.
Kahl, O., Hoff, O.K. and Knülle, W.
Gross morphological changes in the salivary glands of *Ixodes ricinus* (Acari, Ixodidae) between blood meals in relation to active uptake of atmospheric water vapour 239
Kaltenrieder, M.
Scototaxis and target perception in the camel tick *Hyalomma dromedarii* 267
Kaufman, W.R.
Organ culture of ixodid-tick salivary glands 79
Effect of 20-hydroxyecdysone on the salivary glands of the male tick, *Amblyomma hebraeum* 87
Knowles, C.O., *see* Errampalli, D.D. and Knowles, C.O.
Knülle, W., *see* Kahl, O. et al.
Krainacker, D.A. and Carey, J.R.
Effect of age at first mating on primary sex-ratio of the two-spotted spider mite 169
Lamoreaux, W.J., *see* Eggenberger, L.R. et al.
Laughland, L.A., *see* Smith, B.P. and Laughland, L.A.
Lhomme, M., *see* Richard, D. et al.
Meagher, R.L. Jr. and Meyer, J.R.
Influence of ground cover and herbicide treatments on *Tetranychus urticae* populations in peach orchards 149
Mesa, N.C., Braun, A.R. and Bellotti, A.C.
Comparison of *Monoychellus progresivus* and *Tetranychus urticae* as prey for five species of phytoseiid mites 159
Meyer, J.R., *see* Meagher, R.L. Jr. and Meyer, J.R.
Mossadegh, M.S.
Development of *Euvarroa sinhai* (Acarina: Mesostigmata), a parasitic mite of *Apis florea* on *A. mellifera* worker brood 73
Mothes-Wagner, U., Reitze, H.K. and Seitz, K.-A.
Environmental actions of agrochemicals. 2. Histological effects of the herbicide/insecticide dinoseb-acetate (2-sec-butyl-4,6-dinitrophenyl acetate) on the spider mite *Tetranychus urticae* (Acari: Tetranychidae) reared on herbicide-treated *Phaseolus vulgaris* 289
Mumcuoglu, K.Y.
A technique for quantitative evaluation of ectoparasitic mites and insects of domestic animals 97
Münster-Swendsen, M., *see* Nachman, G. et al.
Nachman, G., Pedersen, O.C., Münster-Swendsen, M. and Tomkiewicz, J.
Sampling strategies for assessing the intra-plant density of the cassava green mite (*Mononychellus tanajoa*): A case-study 31
Norval, R.A.I. and Perry, B.D.
Introduction, spread and subsequent disappearance of the brown ear-tick, *Rhipicephalus appendiculatus*, from the southern lowveld of Zimbabwe 103
Onken, A.B., *see* Archer, T.L. et al.
Pedersen, O.C., *see* Nachman, G. et al.
Perry, B.D., *see* Norval, R.A.I. and Perry, B.D.
Peterson, G.C., *see* Archer, T.L. et al.
Reitze, H.K., *see* Mothes-Wagner, U. et al.
Richard, D., Colin, M.E. and Lhomme, M.
Anatomical organization of the tracheal system of *Varroa jacobsoni* (Acari: Varroidae) 63

Seitz, K.-A., *see* Mothes-Wagner, U. et al.
Smith, B.P. and Laughland, L.A.
Stimuli inducing detachment of larval *Arrenurus danbyensis* (Hydrachnidia: Arrenuridae) from adult *Coquillettidia perturbans* (Diptera: Culicidae) 51
Thind, B.B. and Edwards, J.P.
Stimulation of egg production in the grain mite *Acarus siro* by the juvenile-hormone analogue fenoxycarb 1
Tomkiewicz, J., *see* Nachman, G. et al.
Van der Geest, L.P.S., *see* De Boer, R. and van der Geest, L.P.S.
Wermelinger, B. and Delucchi, V.
Effect of sex-ratio on multiplication of the two-spotted spider mite as affected by leaf nitrogen 11
Westphal, E., Dreger, F. and Bronner, R.
The gall mite *Aceria cladophthirus*. I. Life-cycle, survival outside the gall and symptoms' expression on susceptible or resistant *Solanum dulcamara* plants 183
Wright, C.G., *see* Downing, A.S. et al.
Zhang, Z.-Q.
Book review of *Applied Acarology*, by Jie-Liu Xin 145

Experimental & Applied Acarology, 9 (1990) .
Elsevier Science Publishers B.V., Amsterdam

Subject Index

Acaricides, *see* Pest managmement: A
Acarology, general
Applied Acarology (book review) 145
Acarus
Stimulation of egg production by fenoxycarb 1
Aceria
I. Life-cycle, survival and host symptoms on *Solanum* 183
Age
Effect of age at first mating on sex-ratio of *Tetranychus* 169
Amblyomma
Organ culture of ixodid-tick salivary glands 79
Effect of 20-hydroxyecdysone on salivary glands 87
Population growth rates on cattle 259
Amblyseius
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Apis, parasites, *see Varroa*
see also Euvarroa
Arachnology, general
Comparative arachnology (book review) 311
Argas
Intracellular rickettsia-like microorganisms in organs 137
Arrenurus
Detachment of larvae from mosquitoes 51
Banks grass mite, *see Oligonychus*
Bees, parasites *see Varroa*
see also Euvarroa
Behaviour
Scototaxis and target pereception in *Hyalomma* 259
Biological control, *see* Pest Management: B
Biology, *see* Structure and function, organism
Brown ear-tick, *see Rhipicephalus*
Bulb mite, *see Rhizoglyphus*
Cassava green mite, *see Mononychellus*
Cholinesterase inhibition
In *Rhizoglyphus* in relation to acaricides 19
Chorioptes
Technique for quantitative evaluation of ectoparasites of domestic animals 97
Cross-host transfer
Development of *Euvarroa* parasite of *Apis florea* on *A. mellifera* 73
Culture, organ
Organ culture of ixodid-tick salivary glands 79
Demodex
Technique for quantitative evaluation of ectoparasites of domestic animals 97
Dermacentor
Hemocytic encapsulation of implants 279
Dermatophagoides
Pyrogliphidae: Control by electric blankets 113

Effects of insect growth regulators on laboratory populations 123
Effect of heat treatments 131
Detachment, parasite
Detachment of larval *Arrenurus* from mosquitoes 51
Ecdysteroids
Effect of 20-hydroxyecdysone on salivary glands of *Amblyomma* 87
Egg production
Stimulation of egg production in *Acarus* by fenoxycarb 1
Encapsulation, hemocytic
Of implants in *Dermacentor* 279
Environment, influence of
Rhipicephalus in Zimbabwe 103
Changes in salivary glands of *Ixodes* in relation to atmospheric water 239
Euseius
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Euvarroa
Development of parasite of *Apis florea* on *A. mellifera* 73
Fenoxycarb, *see* Growth regulators, effects of
Gall mite, *see Aceria*
Genetic manipulation
Effect of prey stage on life-table of genetically manipulated *Metaseiulus* 201
Grain mite, *see Acarus*
Ground cover, effects of
Influence of ground cover and herbicide on *Tetranychus* in peach orchards 149
Growth regulators, effects of
Stimulation of egg production in *Acarus* by fenoxycarb 1
Effects of insect growth regulators on laboratory populations of *Dermatophagoides* 123
Heat treatment, effects of
House-dust mite control by electric blankets 113
Effect of heat treatments on *Dermatophagoides* 131
Herbicides, effects of
Influence of ground cover and herbicide on *Tetranychus* in peach orchards 149
Hormones, *see* Growth regulators, effects of
Host plants, effect of cultivar
Oligonychus abundance on sorghum with different nitrogen use and metabolism 177
Gall mite, *Aceria*. I. Life-cycle, survival and symptoms on *Solanum* 183
House-dust mites, *see Dermatophagoides*
Humidity, atmospheric, *see* Environment, influence of
Hyalomma
Scototaxis and target perception 267
Immunological responses
Rabbit, responses to *Rhipicephalus* 219
IPM, *see* Pest management: B
Ixodes
Morphological changes of salivary glands in relation to uptake of atmospheric water 239
Ixodids
Effect of 20-hydroxyecdysone on salivary glands of *Amblyomma* 87
Metaseiulus
Effect of prey stage on life-table of genetically manipulated *Metaseiulus* 201
Modelling
Rhipicephalus in Zimbabwe 103

Mononychellus
Assessing intra-plant density 31
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Mosquito, parasites, *see Arrenurus*
Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Effect of sex-ratio on *Tetranychus* affected by leaf nitrogen 11
Oligonychus abundance on sorghum with different nitrogen use and metabolism 177
Pest Managment. A. Control of acarine pests
Cholinesterase inhibition in *Rhizoglyphus* in relation to acaricides 19
Effects of insect growth regulators on laboratory populations of *Dermatophagoides* 123
Effect of heat treatments on *Dermatophagoides* 131
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Effect of dinoseb-acetate on *Tetranychus* 287
Pest management: B. Acarines as pest-control agents
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Effect of prey stage on life-table of genetically manipulated *Metaseiulus* 201
Phytoseiulus
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Population dynamics
Rhipicephalus in Zimbabwe 103
Effect of age at first mating on sex-ratio of *Tetranychus*169
Population growth rates for *Amblyomma* on cattle261
Psoroptes
Techique for quantitative evaluation of ectoparasites of domestic animals 97
Pyroglyphidae
House-dust mite control by electric blankets 113
Effects of insect growth regulators on laboratory populations of *Dermatophagoides* 123
Effect of heat treatments on *Dermatophagoides* 131
Response, animal host
Immunological responses of rabbit to *Rhipicephalus* 219
Rhipicephalus
In Zimbabwe 103
Immunological responses of rabbit 219
Rhizoglyphus
Cholinesterase inhibition in relation to acaricides 19
Rickettsia-like microorganisms
Intracellular rickettsia-like microorganisms in organs of *Argas* 137
Salivary glands, *see* Structure and function, organism
Sampling techniques
Assessing intra-plant density of *Mononychellus* 31
Technique for quantitative evaluation of ectoparasites of domestic animals 97
Sarcoptes
Technique for quantitative evaluation of ectoparasites of domestic animals 97
Scototaxis
And target perception in *Hyalomma* 267
Sex-ratio
Effect of sex-ratio on *Tetranychus* affected by leaf nitrogen 11
Effect of age at first mating on sex-ratio of *Tetranychus* 169
Solanum
Gall mite, *Aceria*. I. Life-cycle, survival and host symptoms 183

Sorghum
Oligonychus abundance on sorghum with different nitrogen use and metabolism 177
Structure and function, organism
Organization of tracheal system of *Varroa* 63
Organ culture of ixodid-tick salivary glands 79
Effect of 20-hydroxyecdysone on salivary glands of *Amblyomma* 87
Intracellular rickettsia-like microorganisms in organs of *Argas* 137
Morphological changes of salivary glands of
Ixodes in relation to uptake of atmospheric water 239
Target perception
And *Hyalomma* scototaxis 267
Tetranychus
Effect of sex-ratio on *Tetranychus* affected by leaf nitrogen 11
Influence of ground cover and herbicide on *Tetranychus* in peach orchards 149
Mononychellus and *Tetranychus* as prey for five phytoseiids 159
Effect of age at first mating on sex-ratio 169
Effect of dinoseb-acetate 289
Two-spotted spider mite, *see Tetranychus*
Typhlodromus
Mononychellus and *Tetranychus* as prey for five phytoseiid 159
Varroa
Organization of tracheal system of *Varroa* 63
